

Contents :

Correlation of Concrete Compressive Strength Using the Hammer Test, Ultrasonic Pulse Velocity and Compression Test Methods	01-10
Physical and Mechanical Properties of Paving Blocks According To By the Addition of Mineral Mixture	11-17
Utilizing Deep Learning Models for the Classification of Thyroid Nodules in Ultrasound Images	18-31
Strategic Optimization and Performance Analysis for Urban Electrical Transmission Networks	32-42
Advanced Load Flow Analysis and Cost Optimization in Electrical Transmission Networks	43-64
Thermal radiative MHD Flow, heat and mass transfer over vertical plate with internal heat generation and chemical reaction	65-75
A study of high saturation color in public street green spaces in cold areas in the context of urban renewal ---- Take Xiangfang District, Harbin City as an Example	76-79
A Multi-Threaded Real Time Operating System based Robotic Car	80-89
