

Contents :

Fluid-induced vibration deformation of a nozzle flowmeter with flowrate and temperature effect	01-11
E-commerce Trends	12-22
Investigating the causes of uncertainty in emotion recognition from multimodal speech Inputs	23-34
Nonwoven Composite in Particle Filtration	35-43
Exact solution of position dependent mass Schrödinger equation for the Hulthen plus Coulomb tensor potential	44-48
Theory of Time -2024 (Universal Theory for Everything)	49-301
Optimal Resource Allocation in Exam Scheduling Using the Knapsack Model	302-321
Designing an Intelligent Monitoring System to Detect Attacks	322-327
AI's effect on labour: What does economic literature say?	328-350
The influence of zinc layer heat treatment on the formation of ears of thin steel sheets	351-355
Cyclic Voltammetry and its Application to Synthesis New Compounds from Coumarin Derivatives	356-398
Conversion of Overlapping Relationships from PDM to BDM in CPM Network	399-411
